

## Create Account in SendGrid

Date	15 November 2022
Team ID	PNT2022TMID01701
Project Name	Personal Expense Tracker Application

The screenshot shows the SendGrid dashboard for a user named Dhanish. The left sidebar contains navigation links: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS. The main content area has a welcome message and a guide to get started. A prominent blue banner reads "Send your first emails with Twilio SendGrid". Below this, a section titled "Create a sender identity" explains the process and offers two options: "Create a Single Sender" (highlighted in a blue button) and "Authenticate a domain instead". An illustration shows an email header with "Your Business" as the sender. At the bottom, a "Send your first email" section includes a lock icon and a message: "Please create a sender identity before sending your first email." The footer partially shows a link to "Remove email sending limits".

Welcome, Dhanish!

To get up and running quickly, please follow the steps outlined below.

### Send your first emails with Twilio SendGrid

#### Create a sender identity

Before sending email, you'll need to create a sender identity. There are [two ways](#) to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.

[Create a Single Sender](#) [Authenticate a domain instead](#)

Your sender identity is the "from" email address your recipients will see in their inbox. [Learn more](#) about this.
